WISE VENTURE

PROJECT COLLABORATION

Have upcoming projects that your IT department does not have the time or skills to deliver successfully and on-time? Is your IT Department too busy with janitorial IT maintenance to address critical functions? You don't need or have to try to justify the expense of additional employees on staff. OpenGate's WiseVenture services can act like a Virtual IT department providing reliable, technological expertise that is never more than a phone call away. You can rest assured we will be team and results oriented when working side by side with your IT staff or handling the full scope of a project on our own.

POSITIONED FOR SUCCESS

In today's economy, strategic alliances enable business to gain competitive advantage through access to a partner's resources, including markets, technologies, capital and people.

This adds complementary resources and capabilities, enabling participants to grow and expand more quickly and efficiently. Especially fast-growing companies rely heavily on alliances to extend their technical and operational resources. In the process, they save time and boost productivity by not having to develop their own, from scratch. They are thus freed to concentrate on innovation and their core business.through increased productivity and reduced need for employee overhead.
